

DEPARTMENT OF COMPUTER STUDIES

REVISIONS LIST FORM

**INFINET: DESKTOP SIMULATION GAME FOR TEACHING
COMPUTER SYSTEMS SERVICING (CSS)**

DOCUMENTATION	SYSTEM
• Introduction Focus on desktop-based simulation. • Project Context Include client demographic profile. Clearly explain the problem. • Objectives Include system modules in specific objectives. Use appropriate system testing tools. • Purpose and Description Convert into paragraph form (no bullets). Organize beneficiaries properly. • Scope and Limitations Remove redundant statements. • Review or Related Literature Exclude mobile, VR, and 3D simulations. • Graphical User Interface Design Present wireframes instead of final design. • System Architecture Follow CvSU format.	• User Interface Adjust color scheme to improve readability and user experience. • Motherboard Components Redesign (CPU, BIOS, etc.) for accuracy and familiarity. • System Flow Align steps with TESDA procedures. • Slot Indicators Add visual guides for proper component placement. • COC 1 Sequence Start with a functional computer, then proceed to disassembly and assembly.
